Question #5   *Topic 2*

Note: This question is part of series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have an Azure subscription that contains a resource group named RG1.

You create an Azure Active Directory (Azure AD) group named ResearchUsers that contains the user accounts of all researchers.

You need to recommend a solution that meets the following requirements:

☞ The researchers must be allowed to create Azure virtual machines.

☞ The researchers must only be able to create Azure virtual machines by using specific Azure Resource Manager templates.

Solution: Create an Azure DevOps Project. Configure the DevOps Project settings.

Does this meet the goal?

    A. Yes

    B. No

Correct Answer: *B*

Instead: On RG1, assign the Contributor role to the ResearchUsers group. Create a custom Azure Policy definition and assign the policy to RG1.

Question #6   *Topic 2*

Note: This question is part of series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have an Azure subscription that contains a resource group named RG1.

You create an Azure Active Directory (Azure AD) group named ResearchUsers that contains the user accounts of all researchers.

You need to recommend a solution that meets the following requirements:

☞ The researchers must be allowed to create Azure virtual machines.

☞ The researchers must only be able to create Azure virtual machines by using specific Azure Resource Manager templates.

Solution: On RG1, assign the Contributor role to the ResearchUsers group. Create a custom Azure Policy definition and assign the policy to RG1.

Does this meet the goal?

    A. Yes

    B. No

Question #7   *Topic 2*

A company named Contoso Ltd., has a single-domain Active Directory forest named contoso.com.

Contoso is preparing to migrate all workloads to Azure. Contoso wants users to use single sign-on (SSO) when they access cloud-based services that integrate with Azure Active Directory (Azure AD).

You need to identify any objects in Active Directory that will fail to synchronize to Azure AD due to formatting issues. The solution must minimize costs.

What should you include in the solution?

    A. Azure Advisor

B. Microsoft Office 365 IdFix

C. Azure AD Connect Health

D. Password Export Server version 3.1 (PES v3.1) in Active Directory Migration Tool (ADMT)

Correct Answer: *B*

Question #8   Topic 2

HOTSPOT -

Your company has an API that returns XML data to internal applications.

You plan to migrate the applications to Azure. You also plan to allow the company's partners to access the API.

You need to recommend an API management solution that meets the following requirements:

☞ Internal applications must receive data in the JSON format once the applications migrate to Azure.

☞ Partner applications must have their header information stripped before the applications receive the data.

What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Minimum number of APIs to add to Azure API
Management:

▼
1
2
3

Minimum number of products to publish in
Azure API Management:

▼
1
2
3

Minimum number of policy elements to add:

▼
1
2
3

Answer Area

Correct Answer:

Minimum number of APIs to add to Azure API
Management:

▼
1
2
3

Minimum number of products to publish in
Azure API Management:

▼
1
2
3

Minimum number of policy elements to add:

You have an Azure subscription.

You need to recommend a solution to provide developers with the ability to provision Azure virtual machines. The solution must meet the following requirements:

☞ Only allow the creation of the virtual machines in specific regions.

☞ Only allow the creation of specific sizes of virtual machines.

What should include in the recommendation?

    A. conditional access policies

    B. Azure Policy

    C. Azure Resource Manager templates

    D. role-based access control (RBAC)

Correct Answer: *B*
